## Welcome Message

It is my pleasure and honour to extend to you a warm invitation to attend and participate in 4<sup>th</sup> EHS International Obstetrics & Gynecology Conference which is to be held in Fujairah UAE.

This is CME accredited and the themes of the Conference truly reflect current trends, recent advances, and new approaches in the field. It will provide a platform for several experts, administrators, policy makers, clinicians, and researchers, to productively engage and mutually exchange theoretical knowledge, and real-time experiences.

This 3-day conference consists of a keynote, plenary talks, workshops, poster presentations with both academic and practical scientific sessions. Each day will start with a plenary session addressing a current issue of importance. After the plenaries, the scientific committee has organized parallel multidisciplinary sessions, long oral presentations, and short poster presentations on the major topics.

I hope the deliberations from various distinguished speakers at this special conference will be an enriching and immersive experience for the participants - one of renewal, learning, growth, and connection. I would also like to thank the organizers and all the hands that have worked relentlessly in carrying out this mammoth task. I wish you the very best for a successful and fruitful conference. It would indeed lay the foundation for many such platforms for interactions between experts around the world. I look forward to meeting you all in the Conference.
